Dear Marian J. Bakermans-Kranenburg,

I would like to extend congratulations on being named a 2016 Highly Cited Researcher.

You were selected as a Highly Cited Researcher because your work has been identified as being among the most valuable and significant in the field of **Psychiatry/Psychology**.

Very few researchers earn this distinction – writing the greatest number of reports, officially designated by Essential Science Indicators as Highly Cited Papers. In addition, these reports rank among the top 1% most cited works for their subject field and year of publication, earning them the mark of exceptional impact.

I applaud your contributions to the advancement of scientific discovery and innovation and wish you continued success.

Best regards,
